

Cloud

Cloud

Cloud lights were first launched in 2008 as part of the Spiral Islands installation of matching lights and settees. This was inspired by the clouds that David saw sitting over small islands all over the Pacific Ocean, which were used by Polynesian navigators to find islands from afar. The Cloud lights were made with frosted plastic but were later discontinued due to the negative environmental impact of the technique. Cloud has now been given a second chance through a new material. The new version is made almost entirely of bamboo plywood applied in the same strips or rings. This allows light to shine through while offering a similar visual lightness as the former translucent plastic version.

Cloud is available in Small or Large sizes. The plywood finish can be either raw bamboo or painted, offering a range of options.

Features

Shipped Kitset

Seed System kitset lightshades are on average 1/30th of the volume of the assembled light. This aims to help minimize the effects of shipping and to reduce the design's environmental footprint.

Warranty

This light is warranted for three years from date of purchase for failure of parts.

Care Instructions

All lights are intended for use in dry interior conditions only and can be cleaned with a soft cloth dampened slightly in warm water when the light is switched off. Do not use detergents.

EPD Certified

An EPD is a standardised and verified way of quantifying the environmental impacts of a product, based on a consistent set of rules that have been developed through a stakeholder consultation process.

Finishes

We offer 12 stock finish options for Cloud. We use low VOC acrylic paint and it is most commonly used on the interior of the light. We can also produce lights in other finishes or colours by special order. All lights are made from sustainably grown bamboo plywood sourced from an FSC accredited factory.
